Total YCRA score = 71 (bolded areas are suggested treatment priorities). ---'s overall score of 71 is typical of other youth who require a highly restrictive residential treatment environment (+58) to address their Psychological, Social, and Developmental needs. Recommended treatment priorities include Family Relationships, Aggression, Depression/ Self Harm, and Social/ Interpersonal Skills. Those scoring this high frequently need at least 6 months of intensive treatment before being able to successfully move to a less restricted setting. (Note: Information is based only on information provided- some pertinent information may be missing).

YCRA Treatment Priorities cross-references with Agency and State Treatment Categories

RISK TO SELF Range of scores 3-24 (total score = 19/24)	RISK TO OTHERS Range of scores 3-24 (total score = 12/24)	SOCIAL AND ADAPTIVE FUNCTIONING Range of scores 4-32 (total score = 10/32)	SUBSTANCE ABUSE Range of scores 1-8 (total score = 3/8)	FAMILY RESOURCES Range of scores 1-8 (total score = 8/8)	DEGREE OF STRUCTURE Range of scores 3-24 (total score = 19/24)
